With this award we want to honor policies, projects, initiatives, institutions, start-ups and in very exceptional occasions, individuals, whose performance towards achieving the goals of this chapter should receive recognition.

A prime example of an action we find commendable regarding the first UN Sustainable Development Goal -No Poverty- could be the work of [TECHO](#), an NGO working to overcome poverty in Latin America and the Caribbean which envisions a fair and poverty-

Therefore, Entreprs appreciates the active work of those who have a significant impact in the implementation of these targets, which include the Sustainable Development Goals, established in 2015 by the United Nations, as well as more objectives which contribute to a more sustainable world. This is why the role of the [Global Jurors](#) specialists able to highlight the projects that they believe deserve to be recognized, is crucial.

Being a Global Juror just takes an hour per year from you, giving you private access to an online platform to nominate and vote, plus preferential access to the Congress and Awards Gala.

HOW TO DEFINE POVERTY

Poverty is defined by the United Nations as “a denial of choices and opportunities, a violation of human dignity. It means lack of basic capacity to participate effectively in society. It means not having enough to feed and clothe a family, not having a school or clinic to go to, not having the land on which to grow one’s food or a job to earn one’s living, not having access to credit. It means insecurity, powerlessness and exclusion of individuals, households and communities. It means susceptibility to violence, and it often implies living on marginal or fragile environments, without access to clean water or sanitation”.²

The goal of poverty eradication is not limited to the search of a better redistribution of wealth in order to solve economic inequality, but to put an end to the negative consequences which are irremediably adjacent to poverty, such as not being able to cover basic living expenses or have access to clean water, education or other basic services such as medical assistance.

Poverty is an issue that affects hundreds of millions of people all over the world. According to the [United Nations](#), issues regarding poverty have aggravated since 1992, especially in developing countries. Poverty has become a complex problem with a significant impact that puts social, economic and political stability at risk at a global level. In order to counteract this, the United Nations has set [five main targets](#) to achieve in order to accomplish this sustainable development goal, which are to be achieved with the cooperation of a variety of global actors.
