5th GLOBAL ENTREPS AWARDS

RESPONSIBLE CONSUMPTION AND PRODUCTION,
CATEGORY 12

FOREWORD

The nonprofit Entreps -International Board of Global Actors & Business for Sustainability- with 1,000 Global Jurors from 126 countries partners the United Nations to promote together the Sustainable Development Goals and noble values, since the world is undergoing a number of transformations that require cooperation above all. [Have your say, take the UN75 1-minute Survey via Entreps by clicking this link, and get free access to the 5Gcitizens International Congress -Seville \(Spain\), 25th to 27th June 2020.](#)

Our climate is changing rapidly. We are seeing major shifts in technology and in the make-up of our population. We face risks from growing inequalities, long-running conflicts and new forms of violence. Managing these trends will require cooperation across borders, sectors and generations; So will do achieving our shared vision for a safer, fairer and more sustainable world.

To mark its 75th anniversary and beyond, the United Nations is launching a global conversation on the role of international cooperation in building the future we want. [If you did not take the 1-minute survey yet, Shape Your Future now.](#)

Entreps organises the 5th Global Entreps Awards in Seville (Spain) on 26th June 2020, exactly the day when 75th Anniversary years ago the foundational Charter of the United Nations was signed in San Francisco, in 1945. For that reason, Entreps and the United Nations will be performing together in Seville, also co-organising an International

Congress called 5Gcitizens from 25th to 27th June 2020, where the voice of citizens of all kinds, from 126, will be heard. [Register now.](#)

Entreprs was also born on 26th June, ten years ago.

5th GLOBAL ENTREPS AWARDS

After organizing the Global Entreprs Awards four times until now, **this 5th edition puts the accent on the necessary ‘Research and Innovation for Competitiveness Sustainability’**, with **32 categories** that include the 17 SDGs, **two special chapters on the ‘75th Anniversary of the United Nations’ and ‘Free Speech’ made by 5Gcitizens.** [Apply now.](#)

The awards also take into account other categories covering sustainable: Tourism, Net-zero Emissions, Self-driven Vehicles, Youth and The Elderly, Aerospace, AI Artificial Intelligence, Circular Economy and Agriculture, Africa, 5G and Start-ups, Blockchain, Sports, Islands and Indigenous Communities and, last but not least, Academia and Applied Research. [1,000 Global Jurors from 126 countries propose candidates and eventually vote. Become a Global Juror, represent your country now.](#)

126 additional recognitions, one per country participating, will be granted.

RESPONSIBLE CONSUMPTION AND PRODUCTION, CHAPTER 12

With this award we want to honor policies, projects, initiatives, institutions, start-ups and in very exceptional occasions, individuals, whose performance towards achieving the goals of this chapter should receive recognition.

A prime example of a project we find commendable regarding the twelfth UN Sustainable Development Goal -Responsible Consumption and Production- is the project of [Community Chlorofluorocarbons Destruction](#) in Ghana, which has reduced the unauthorized and environmentally harmful burning of electric cables by over 30% since

installing its cable granulator¹. [If you know any project, initiative or policy deserving the Award on this particular category, reach them out to apply now.](#)

Therefore, Entreps appreciates the active work of those who have a significant impact in the implementation of these targets, which include the Sustainable Development Goals, established in 2015 by the United Nations, as well as more objectives which contribute to a more sustainable world. This is why the role of the [Global Jurors](#) specialists able to highlight the projects that they believe deserve to be recognized, is crucial.

Being a Global Juror just takes an hour per year from you, giving you private access to an online platform to nominate and vote, plus preferential access to the Congress and Awards Gala.

RELEVANCE OF SUSTAINABLE CONSUMPTION AND PRODUCTION

According to the [United Nations](#), sustainable consumption and production is about promoting resource and energy efficiency, sustainable infrastructure, and providing access to basic services, green and decent jobs and a better quality of life for all. Its implementation helps to achieve overall development plans, reduce future economic, environmental and social costs, strengthen economic competitiveness and reduce poverty.

At the current time, material consumption of natural resources is increasing, particularly within Eastern Asia. Countries are also continuing to address challenges regarding air, water and soil pollution.

Since sustainable consumption and production aims at “doing more and better with less,” net welfare gains from economic activities can increase by reducing resource use, degradation and pollution along the whole life cycle, while increasing quality of life. There also needs to be significant focus on operating on supply chain, involving everyone from producer to final consumer. This includes educating consumers on sustainable consumption and lifestyles, providing them with adequate information through standards

and labels and engaging in sustainable public procurement, among others. In order to achieve this, eight targets have been added to the Sustainable Development Goals Agenda set in 2015².
