ENTREPS AWARD: QUALITY EDUCATION, CHAPTER 4

With this award we want to honor policies, projects, initiatives, institutions, start-ups and in very exceptional occasions, individuals, whose performance towards achieving the goals of this chapter should receive recognition.

A prime example of an organization we find commendable regarding the fourth UN Sustainable Development Goal -Quality Education- is [The Citizens Foundation](#), one of Pakistan’s leading organizations in the field of education for the less privileged¹. [If you](#)

Therefore, Entreps appreciates the active work of those who have a significant impact in the implementation of these targets, which include the Sustainable Development Goals, established in 2015 by the United Nations, as well as more objectives which contribute to a more sustainable world. This is why the role of the [Global Jurors](#) specialists able to highlight the projects that they believe deserve to be recognized, is crucial.

Being a Global Juror just takes an hour per year from you, giving you private access to an online platform to nominate and vote, plus preferential access to the Congress and Awards Gala.

IMPORTANCE OF QUALITY EDUCATION FOR A SUSTAINABLE FUTURE

According to the [United Nations](#), hundreds of millions of children are currently out of school and a great percentage of those who can access some sort of education lack basic skills in fields such as reading and math. Quality education is not guaranteed because of a series of factors such as a lack of adequately trained teachers, poor conditions of schools and difficulties attributed to rural areas.

Progress has already been made towards improving access to education around the world as awareness has been successfully raised about its impact in defining societies and future generations. However, there is still a long path to follow as, although the improvements of basic literacy skills have been broadly achieved, equal access to education needs to be expanded to all levels of education. In order to counteract this, nine targets have been added to the Sustainable Development Goals agenda set in 2015².
