5th GLOBAL ENTREPS AWARDS

AFFORDABLE AND CLEAN ENERGY, CATEGORY 7

FOREWORD

The nonprofit Entreps -International Board of Global Actors & Business for Sustainability- with 1,000 Global Jurors from 126 countries partners the United Nations to promote together the Sustainable Development Goals and noble values, since the world is undergoing a number of transformations that require cooperation above all. [Have your say, take the UN75 1-minute Survey via Entreps by clicking this link, and get free access to the 5Gcitizens International Congress -Seville \(Spain\), 25th to 27th June 2020.](#)

Our climate is changing rapidly. We are seeing major shifts in technology and in the make-up of our population. We face risks from growing inequalities, long-running conflicts and new forms of violence. Managing these trends will require cooperation across borders, sectors and generations; So will do achieving our shared vision for a safer, fairer and more sustainable world.

To mark its 75th anniversary and beyond, the United Nations is launching a global conversation on the role of international cooperation in building the future we want. [If you did not take the 1-minute survey yet, Shape Your Future now.](#)

Entreps organises the 5th Global Entreps Awards in Seville (Spain) on 26th June 2020, exactly the day when 75th Anniversary years ago the foundational Charter of the United Nations was signed in San Francisco, in 1945. For that reason, **Entreps and the United Nations will be performing together in Seville, also co-organising an International**

Congress called 5Gcitizens from 25th to 27th June 2020, where the voice of citizens of all kinds, from 126, will be heard. [Register now.](#)

Entreps was also born on 26th June, ten years ago.

5th GLOBAL ENTREPS AWARDS

After organizing the Global Entreps Awards four times until now, **this 5th edition puts the accent on the necessary ‘Research and Innovation for Competitiveness Sustainability’**, with **32 categories** that include the 17 SDGs, **two special chapters on the ‘75th Anniversary of the United Nations’ and ‘Free Speech’ made by 5Gcitizens.** [Apply now.](#)

The awards also take into account other categories covering sustainable: Tourism, Net-zero Emissions, Self-driven Vehicles, Youth and The Elderly, Aerospace, AI Artificial Intelligence, Circular Economy and Agriculture, Africa, 5G and Start-ups, Blockchain, Sports, Islands and Indigenous Communities and, last but not least, Academia and Applied Research. [1,000 Global Jurors from 126 countries propose candidates and eventually vote. Become a Global Juror, represent your country now.](#)

126 additional recognitions, one per country participating, will be granted.

ENTREPS AWARD: AFFORDABLE AND CLEAN ENERGY, CHAPTER 7

With this award we want to honor policies, projects, initiatives, institutions, start-ups and in very exceptional occasions, individuals, whose performance towards achieving the goals of this chapter should receive recognition.

A prime example of a project we find commendable regarding the seventh UN Sustainable Development Goal -Affordable and Clean Energy- is [Natural Capital Partner’s Solar Energy and Mobile Payment](#) project in East Africa, which uses solar lighting systems which enables households to use affordable, safe renewable solar power,

reducing fossil fuel-based domestic energy needs¹. [If you know any project, initiative or policy deserving the Award on this particular category, reach them out to apply now.](#)

Therefore, Entreprs appreciates the active work of those who have a significant impact in the implementation of these targets, which include the Sustainable Development Goals, established in 2015 by the United Nations, as well as more objectives which contribute to a more sustainable world. This is why the role of the [Global Jurors](#) specialists able to highlight the projects that they believe deserve to be recognized, is crucial.

Being a Global Juror just takes an hour per year from you, giving you private access to an online platform to nominate and vote, plus preferential access to the Congress and Awards Gala.

CLEAN ENERGY AS A KEY FOR SUSTAINABILITY

The [United Nations](#) recognizes that Energy is central to nearly every major challenge and opportunity the world faces today and access to it is essential for jobs, security, climate change, food production and increasing incomes, which makes it a basic pillar for the achievement of the Sustainable Development Goals.

At the current time, there are approximately 3 billion people who lack access to clean-cooking solutions and are exposed to dangerous levels of air pollution. Additionally, slightly less than 1 billion people are functioning without electricity and 50% of them are found in Sub-Saharan Africa alone. Fortunately, progress has been made in the past decade regarding the use of renewable electricity from water, solar and wind power and the ratio of energy used per unit of GDP is also declining.

However, the challenge is far from being solved and there needs to be more access to clean fuel and technology and more progress needs to be made regarding integrating renewable energy into end-use applications in buildings, transport and industry. Public

and private investments in energy also need to be increased and there needs to be more focus on regulatory frameworks and innovative business models to transform the world's energy systems. In order to achieve this, three targets have been included in the Sustainable Development Goals agenda set in 2015².
